

SRINATH DOGGALA

Hyderabad, India | +91-7569656550 | doggalasrinath@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with experience building scalable full-stack applications using Python, FastAPI, React, Next.js, TypeScript, PostgreSQL, Redis, SQL, and AWS. Skilled in developing production REST APIs, asynchronous backend services, cloud-native applications, AI-powered workflows, and performance-optimized distributed systems. Passionate about building reliable, maintainable, and scalable software.

TECHNICAL SKILLS

- **Languages:** Python, TypeScript, JavaScript, SQL, Java
- **Frontend:** React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend:** FastAPI, Node.js, Express.js, Django, REST API Development, Authentication (JWT, OAuth), Asynchronous Programming, Concurrency, Microservices, Service-Oriented Architecture, Unit Testing
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, SQL Optimization, Database Design, Pinecone
- **Generative AI:** LangChain, AI Agents, Multi-Agent Systems, Retrieval-Augmented Generation (RAG), Semantic Search, OpenAI API (GPT), Gemini API, Claude API, Vector Databases
- **Infrastructure & DevOps:** AWS, Docker, GitHub Actions, CI/CD, Docker Compose, Git, Vercel, Render
- **Software Engineering:** System Design, REST API Design, Performance Optimization, API Debugging, Scalable Backend Systems, SDLC, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), DBMS, Operating Systems

EXPERIENCE

Sreeva AI May 2026 – Present
Founding AI Full Stack Engineer Intern Remote

- Built and maintained production-ready full-stack applications using React.js, Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Docker, and multiple LLM providers.
- Developed scalable REST APIs, asynchronous backend services, authentication modules, optimized SQL workflows, and backend performance improvements for production interview platforms.
- Contributed to Docker-based deployment workflows, cloud infrastructure, and troubleshooting backend services to improve application reliability.

PROJECTS

ResearchGPT: AI Research Assistant & Literature Review Platform 2025
Python, FastAPI, LangChain, React.js AI Research Platform [Git](#)

- Built a multi-agent AI research assistant using FastAPI, React, LangChain, PostgreSQL, and Pinecone to automate literature search and semantic document retrieval.
- Developed scalable FastAPI REST APIs, optimized SQL queries, Dockerized services, and GitHub Actions CI/CD pipelines for production deployment.

TalentLens AI: AI Recruiter & Career Intelligence Platform 2025
Python, FastAPI, Next.js, PostgreSQL Full Stack Web Application [Git](#)

- Built full-stack document intelligence workflows using FastAPI, Next.js, PostgreSQL, REST APIs, and LLM-powered backend services for resume analysis and structured information extraction.
- Designed scalable REST APIs and service-oriented backend architectures for resume parsing, AI evaluation, structured information extraction, and personalized recommendations.
- Optimized SQL-backed workflows and asynchronous processing to improve throughput, scalability, and backend performance.

AI-Based Fruit & Vegetable Recognition System 2025
Python, TensorFlow, Django, React.js AI/ML Full Stack Project [Git](#)

- Developed an AI-powered computer vision system using MobileNetV2 and Transfer Learning for fruit and vegetable classification.
- Integrated third-party REST APIs (CalorieNinjas) with AI inference services to deliver real-time nutritional analysis.
- Built REST APIs, integrated third-party services, optimized backend performance, and improved system reliability through testing and debugging.

EDUCATION

Chandigarh University 2023 – 2027
B.E. Computer Science Engineering (AI/ML) Punjab, India

SR Junior College 2020 – 2022
Intermediate (97.5%) Hanmakonda, India

CERTIFICATIONS

- IBM Generative AI • Google Cloud AI • Introduction to Machine Learning (Duke University) • SQL for Data Science (University of Colorado Boulder)
